ANNUAL REPORT

OF THE

COMMISSIONER OF PATENTS

FOR THE YEAR

1915

WASHINGTON
GOVERNMENT PRINTING OFFICE

1916

REPORT

OF THE

COMMISSIONER OF PATENTS

TO CONGRESS

FOR THE YEAR ENDED DECEMBER 31, 1915.

DEPARTMENT OF THE INTERIOR,
UNITED STATES PATENT OFFICE,
Washington, D. C., January 31, 1916.

*To the Senate and House of Representatives of the
United States of America in Congress assembled:*

In compliance with section 494 of the Revised Statutes I have the honor to submit the following report of the business of the Patent Office for the year ended December 31, 1915:

RECEIPTS.

Detailed statement of all moneys received for patents, for copies of records or drawings, or from any source whatever.

Applications:	
Cash received	\$1,969,048.65
Cash refunded	7,312.31
Net cash	1,961,736.34
Certificates of deposit	60,405.00
Total cash and certificates	2,022,141.34
Copies:	
Cash received	213,043.44
Cash refunded	3,256.96
Net cash	209,786.48
Certificates of deposit	1,259.10
Total cash and certificates	211,045.58
Recording assignments:	
Cash received	32,627.05
Cash refunded	1,362.75
Net cash	31,264.30
Certificates of deposit	155.00
Total cash and certificates	31,419.30
Registration of prints and labels:	
Cash received	8,753.00
Cash refunded	504.00
Net cash	8,249.00
Certificates of deposit	54.00
Total cash and certificates	8,303.00
Court costs:	
Cash received	85.90
Cash refunded	
Net cash	85.90
Certificates of deposit	
Total cash and certificates	85.90
Aggregates.	
Cash received	2,223,558.04
Cash refunded	12,436.02
Net cash	2,211,122.02
Certificates of deposit	61,873.10
Total cash and certificates	2,272,995.12
Receipts from sale of Official Gazette and other publications through Government Printing Office	17,778.35
Grand total	2,290,773.47

EXPENDITURES.

Amounts expended under the several appropriations from January 1 to December 31, 1915.

Salaries	\$1,313,924.75
Scientific library	3,105.06
International Union for Protection of Industrial Property	655.62
Stationery	10,221.24
Postage on foreign matter	1,039.00
Furniture, carpets, ice, telephones, washing towels, and sundries	23,977.99
Photolithographing:	
Current issue	49,037.26
Reproductions	51,244.96
Photographic copies	3,996.28
Photostat supplies	3,988.47
Foreign patents	15,136.00
Printing and binding:	
Official Gazette, with indexes	157,840.44
Specifications	392,078.83
Miscellaneous	26,834.99
Defending suits	361.26
Total	2,053,442.15

RECEIPTS AND EXPENDITURES.

Receipts from all sources	\$2,290,773.47
Expenditures	2,053,442.15
Surplus	237,331.32

Surplus earnings of the Patent Office, deposited in the Treasury of the United States.

Amount of total net surplus in Treasury, Jan. 1, 1915	\$7,548,175.16
Net surplus for the year 1915	237,331.32
Total net surplus, Dec. 31, 1915	7,785,506.48

SUMMARY OF THE BUSINESS OF THE PATENT OFFICE.

Applications for patents for inventions	67,138
Applications for patents for designs	2,734
Applications for reissues of patents	197
Total	70,069
Applications for registration of trade-marks	8,432
Applications for registration of labels	982
Applications for registration of prints	486
Disclaimers filed	25
Appeals on the merits	2,021
Total	11,946
Patents issued, excluding designs	43,207
Design patents issued	1,545
Patents reissued	182
Total	44,934
Trade-marks registered	6,262
Labels registered	803
Prints registered	371
Total	7,436
Patents expired during the year	20,404
Applications forfeited for nonpayment of final fees	11,331
Applications allowed, awaiting final fees	18,943
Trade-mark applications passed for publication	6,247

OTHER DETAILS OF BUSINESS.

During the year a total of 70,069 applications for patents, reissues of patents, and designs and 187,366 amendments in pending applications for patent were filed. The number of amendments filed shows a reduction from last year of 18,960. This is, doubtless, one result of the effort to make thorough actions. The reduction in the number of amendments which

follows the complete disposition of applications lightens the work, and, it is hoped, will make it possible to bring the work more nearly up to date. The reduction effected during the past year has required 69,043 actions on new cases and 188,721 actions on amended cases. The total number of actions was 257,764. Counting the members of the examining corps, excluding those who are assigned to other work, but including the Primary Examiners, this amounts to fourteen actions per week per member of the corps throughout the year. The weekly average of actions on new cases was 1,328 and on amended cases 3,629, making the total average weekly actions 4,957. The number of letters recorded, constituting the general correspondence of the Office, was 285,102, an increase of 8,401 over the work of the preceding year. In addition to this 51,346 letters of inquiry were returned with circulars of information answering the questions propounded. The fees received by mail and express amounted to \$1,332,088.95, and the fees paid by hand to the Financial Clerk amounted to \$891,469.09. There were received 12,644 pieces of registered mail and 4,149 express parcels.

During the year 1,401 applications previously allowed and forfeited for non-payment of the final fee within the time allowed by law were renewed, and 6,968 cases previously allowed and forfeited were abandoned on account of failure to renew. The number of cases abandoned within the year by reason of failure to further prosecute was 20,779. The total abandonments were 27,747.

In the Drafting Division, 1,051 drawings were made for inventors, who paid \$3,768 therefor, and 7,247 drawings, previously filed, were corrected at the request of the inventors, for which the Office received \$6,502.05. Nine tracings were made at a cost of \$14.00. A total of \$10,284.05 was received as fees for work by the Drafting Division. In addition to this 39 drawings, having a value of \$205.50, were made for the use of the Office, and 4,171 drawings were corrected as to minor features without charge to inventors.

In the Assignment Division 28,714 deeds, transferring title to patents, etc., containing 13,071,250 words and averaging 455 words per deed, were recorded, for which the Office received \$48,502.30. In addition to this the Assignment Division prepared 1,350 abstracts of title, for which fees amounting to \$1,959.45 were paid. The total earnings of the Assignment Division were \$50,461.75, although the table on page 1 of this report shows the receipt of only \$31,419.30 by this division. The difference in these amounts covers work charged to miscellaneous deposit accounts, which are entered under the general head "Moneys received for copies."

Type-written copies of records to the extent of 26,424,000 words were furnished, and other copies containing 3,469,400 words made by outsiders were compared and certified by the Office. For the whole of this work \$29,893.40 was paid. For the certificates attached to such of these copies as were certified the Office received \$1,162.00.

Inventors and attorneys were furnished with 50,378 photographic copies of drawings, 8 x 12½, at fifteen cents each, and 5,066 photographic copies, 10 x 15, at twenty-five cents each; also, 31,236 small-sized photostat copies at fifteen cents each, and 37,911 large-sized photostat copies at twenty-five cents each. The amounts received for these photographic and photostat copies were \$8,823.20 and \$14,163.15, respectively. In addition 10,696 small-sized photostat copies were made for the use of the Office. The expenditures during the year on account of supplies for the photostat machine were \$3,988.47.

Printed copies of the specifications and drawings of patents to the number of 2,764,921 were sold at five cents each, bringing into the Office on this account \$123,613.40 in cash and coupons to the value of \$14,632.65, sold in previous years. Copies to the number of 1,103,470 were shipped to foreign countries in exchange, and 160,502 were drawn for Office use.

CONDITION OF THE WORK IN THE OFFICE.

If the business of the Office be considered with reference to the average time of pendency of applications, the showing as to promptness is satisfactory. The average time that applications upon which patents are granted are in the Office is only about twenty-two months, and ninety-seven per cent. of all applications are disposed of within five years; but, since important patents are frequently unduly delayed, the proper way to handle the business is to enforce the prosecution of all applications as rapidly as is reasonably possible. One of the Law Examiners is assigned to this particular duty. That the work is being done, and with fair success, is shown by the reductions indicated in the foregoing comparative table of distribution of applications by the years in which they were filed as of January 1, 1916, and January 1, 1915, respectively. Every year shows a decrease. The total decrease in the number of applications pending in the examining divisions or on appeal, omitting allowed and forfeited applications, is 7,214 applications. After making allowance for the slight falling off of applications this year there remains a net gain of 6,578 applications. Thus it appears that the Office completed its examination of almost ten per cent. more applications than it received during the year. This does not indicate that the corps is unnecessarily large. It is in pursuance of a definite policy to require prompt prosecution by applicants and their attorneys. This has brought up for final disposition many applications where heretofore dilatory proceedings have been resorted to.

The method by which the Office can force the prosecution of applications is to hold the applicant strictly to the rule requiring complete response to each Office action. If the response filed within a period of one year from the date of the Office action is not complete the Office may hold the application abandoned for lack of proper prosecution.

Now that the amendment work is substantially

up to date risk of having an application held abandoned for lack of proper prosecution can be entirely avoided by filing amendments six weeks or two months in advance of the expiration of the year. If the proposed amendment is not a complete response, the applicant will be notified, so that the response may be completed within the year. It is not the intention to suggest that the filing of amendments be delayed, but to urge that they be not delayed in any case to so near the end of the year that correction of defects cannot be made within the statutory period of one year.

The number of applications awaiting official action January 1, 1916, compared with January 1, 1915, is less both in new applications and in applications which have been acted upon and amended. The total reduction is 3,270 applications. That this is a real gain and not the result of merely hasty actions is shown by the fact that the total number of applications pending before the Office, including applications in all stages short of abandonment, on January 1, 1916, was 3,513 less than the total number pending on January 1, 1915. On January 29, 1916, there were awaiting action by the Office 17,591 applications. At the present rate of reduction and continuing the policy of final disposition of applications without hasty actions the work can be brought up to date in about three years. It should be brought up to date and kept there, for when the Office is behind it is working at a disadvantage both to itself and to the public.

INTERFERENCES.

For approximately two years the practice has been followed of having all prospective interferences submitted to one of the Law Examiners before declaration thereof. From the first this practice has resulted in the correction of numerous inadvertencies and errors. Somewhat more than thirty per cent. of all interferences proposed have been wholly disapproved and six per cent. disapproved in part. As a consequence there has been a considerable reduction not only in the number of interferences, but also in the number of motions for dissolution of interferences.

Since the latter part of 1914 in cases where a difference of one year exists between the filing dates of pending applications found to disclose and claim common patentable subject-matter inquiry has been made of the junior applicant as to his claimed dates of conception, disclosure, and reduction to practice of the common subject-matter. When the response has revealed a date of conception subsequent to the filing date of the senior application, the junior party has been notified that no interference would be declared, but that the senior application would be allowed and when patented be cited as a reference against the junior party's application. This procedure has resulted in a still further and large reduction in the number of interferences declared; but application of it at present is suspended because of a mandamus respecting which an appeal is now pending before the Court of Appeals of the District of Columbia.

While it is not desired to argue in this report the legal questions involved, it seems proper to point out certain facts which have led to the adoption of the course which has been followed.

It was found by actual count of all interferences arising in one year which had been finally determined that where the difference between the filing dates exceeded one year the junior party was successful in less than six per cent. of the cases. This meant that the Office was trying out twenty cases for every one in which an outcome differed from what a judgment on the record would have effected. This disproportion seemed so large as to require that steps be taken to cut it down. Under the scheme adopted a letter has been written to the junior party asking his dates of invention, and interferences were of course declared in all cases where the junior party in his response set up dates showing that he could possibly overcome the filing date of the senior party. It was found that in about two-thirds of this class of cases the dates of conception alleged by the junior party did not go back of the filing date of the senior party, and the prospective interferences were never started.

Special care has been taken to avoid passing out any patents which a junior party in an interference might be able to show should not issue. The Law Examiner has fully discussed the art with the Primary Examiner, suggesting further search whenever this seemed to be advisable, and has also carefully considered all possible irregularities of prosecution of the applications.

Among the duties of the Patent Office the chief one would seem to be to grant a patent to an applicant entitled thereto as promptly and with as little cost and trouble to the applicant as may be possible. To hold him back in order to try out questions of priority which do not in fact exist and which the Office has only to inquire to find do not exist is to permit the processes of the Office to be used for purposes not set forth in the statutes. Such interferences have in the past been a fruitful source of oppression.

The ultimate purpose of all of the supervisory work discussed herein is to make better the conditions under which the work of examination is carried on. The prime function of the Office is to gather the appropriate known art and determine questions of patentability in view of it. The Examiner, if his opinion as to patentability is to be valuable, must know his art. His time should be kept free to study his art and to consider questions of patentability thoughtfully and thoroughly. It is therefore important that the examining corps be relieved of as many matters not essential to searching or passing upon patentability as is possible.

What the public needs from the Office more than anything else is good searches. Any member of the examining corps has an opportunity of wide usefulness. Any one who does not make the best searches of which he is capable, with the facilities provided, not only brings discredit and trouble upon the Office, but causes loss and disappointment

the extent of which cannot be estimated. In many cases it is so large as to be tragic, for inventors are prone to trust the favorable conclusions of the Office and soberly take grave risks in backing their inventions, which if taken in other enterprises would be recognized as risks which should be avoided as unwarranted.

But with the Office doing the best work of which it is capable it still would remain true, in my belief, that it would pay the public if twice as much money were spent in making it possible to make better searches. Great sums now wasted on needless litigation and fruitless enterprises would be saved. The resultant increase in refusal of patents would diminish the fees collected by the Office; but for all fees lost in this way far greater sums would be saved to the inventors and business interests of the country.

REQUIREMENT OF DIVISION.

One of the Law Examiners has been assigned to the work of passing upon requirements for division of applications.

The submission of final requirements for division to a Law Examiner has shown the existence of wide variations of practice among the Primary Examiners. Such divergence has been found particularly as to claims to a process, a product, and a machine, to an improved element and its combination with a machine, broadly stated, and to improvements in parts of an old machine and sub-combinations and elements thereof theoretically capable of use in other machines and other arts.

Care has been taken to avoid requirements of division which might result in the issuance to an applicant of two patents of doubtful validity over each other, as where a process and product or a process and machine are so intimately related as to make joinder advisable, or where the process can only be carried out by the machine, or the product only made by the process, or where they are stated in the same or like terms.

The necessity of classification, so that the statutory examination can be made, has been borne in mind, and where process, product, or machine are of broader application and utility than with each other and the development of trade and invention have pointed to severance and the fields of search have become divergent divisions have been approved. Division is not believed proper where the result might be issuance of two patents resting on the same patentable novelty. Division in such cases is not the appropriate action. Division has been approved as to elements, parts, and subcombinations of a machine where they are clearly separable in structure and function from the other parts of the machine, are capable of use in other relations, and when the course and development of trade and invention has pointed them out as severable. In such cases Office classification indicates and follows a natural development. Where such a development has not taken place, it is not thought necessary for the Office to anticipate the development. A mere theoretical independence of intellectual conception

or of possible use is not believed sufficient in itself to warrant division.

Of the requirements formally submitted to the Law Examiner since September 1, 1915, for approval for final action, forty-two per cent. have been disapproved.

CLASSIFICATION.

During the year 1915 eight classes, containing 17,500 patents, have been revised, fully defined, and published as additional revised classes. Six others, containing 8,200 patents, have been established, subdivided, and published, but without definitions. Eight others, including about 30,000 patents, have been substantially completed by the classifiers and await approval, final revision, and the necessary clerical work to make them available for use. Two hundred and two new subclasses have been created and established in classes already existing.

Estimating that 21,000 of the patents granted in 1915 went into previously-defined classes and adding the 17,500 patents in the newly-defined classes, the number of patents in revised classes with published definitions increased by 38,500. This addition is estimated to bring the number of patents in defined classes, allowing a percentage for partially completed classes, to be defined, up to approximately 576,000. The whole number of published classes is now 262, of which 130 have published class and subclass definitions, copious cross references, and search notes.

At the rate of progress measured by the completed assignment of patents to classes indicated above the classification of all of the patents could not be accomplished under thirty years.

In the work of revising and defining utilization of Examiners having detailed knowledge of the particular subject-matter to be classified is of undoubted advantage when that knowledge is applied in coöperation with an Examiner having some practice and skill in the theory of classification and able to keep in mind the relationships of all the arts. The difficulty of utilizing men in the examining divisions when those divisions are doing their best to keep the examining work up to date has been great. In view of the high pressure required to keep up the work of examination classification has been carried on in some divisions with many interruptions and in others has had to be completely dropped. Examiners employing all their time on examination cannot be utilized to study the relationship of their particular classes to others. In those divisions that have been able to give some time and work in willing coöperation with a classifier good results have followed.

It is hoped that such increase in the examining corps may be obtained in the near future that in each division having unrevised classes at least one man with some knowledge of the arts of that division may be utilized continuously for classification purposes in coöperation with a man from the division devoted to classification. At the present time some of the classifiers are endeavoring to supervise work in more than one division, and present experience indicates that this is practicable. More-

over, there is a large amount of clerical work which must be provided for and which with the present clerical force the Office cannot perform.

TRADE-MARK DIVISION.

The Trade-Mark Division of designs and trade-marks examines applications for patents for designs, applications for registration of trade-marks, and applications for registration of prints and labels. The work in this division has steadily increased. As the reference files constantly grow larger and the number of applications filed is constantly increasing the force provided is unable to keep pace with the work and is gradually falling farther and farther behind. This is bad both for the Office and for the commercial public. Applicants are compelled to wait for long periods of time before the first action can be made by the Office, and after response to the Office action is made by the applicant the congestion of the work necessitates another delay on the part of the Office.

I am asking Congress to provide one additional First Assistant and four Second Assistant Examiners for the Trade-Mark Division, so that the important work gradually piling up in the division may be properly disposed of within a reasonable time after its receipt.

EXCHANGE OF PATENT COPIES WITH CANADA.

A joint resolution of Congress approved January 14, 1915, authorized an exchange of copies of patents with the Canadian Patent Office. Copies of all patents issued since October 7, 1913, have been forwarded to the Canadian Patent Office; but on account of the lack of available force in the Patent Office and the pressure of current work it has up to this time been impossible to draw from the files a set of copies earlier than the date mentioned. I hope, however, to be able to complete this work within the near future.

THE PANAMA-PACIFIC EXPOSITION.

Operation of the act of September 18, 1913.

In obedience to the act of September 18, 1913, known as the "Kahn Act," an office was established at San Francisco, California, on July 1, 1914, under the joint direction of the Commissioner of Patents and the Register of Copyrights.

Including informal and incomplete applications eighteen applicants presented themselves asking for Certificates of Proprietorship for the Patent Office. Four of these applications involved foreign mechanical patents distributed as follows: one English; one Canadian; two French.

The two French applications were found to be incomplete and were subsequently withdrawn by the applicants.

The English applicants have not yet complied with the requirements of the Patent Office.

The remaining fourteen applications involved French trade-marks. At the time of presentation all of these were informal and incomplete and were returned to the applicants for completion in accordance with the requirements of the Office. Two were never returned. One was returned with require-

ments complied with and the certificate has been issued. The eleven remaining applications were returned after December 4, 1915, the date upon which the branch office became non-existent by law, and were refused on the ground that the applications were too late.

It is evident from the showing that the disposition of foreign exhibitors at the Panama-Pacific International Exposition to take advantage of the provisions of the act was so slight as to be practically negligible.

The cost of maintaining the branch Patent Office at San Francisco, as required by law, from July 1, 1914, until the close of the exposition was \$1,304.45. The amount appropriated for this purpose was \$15,000, and the balance of \$13,695.55 remains unexpended. To the expenditures for the maintenance of the branch Patent Office should be added \$1,800, the salary for one year to Mr. William Osborn, clerk in charge, detailed from the Patent Office, but paid from the regular appropriation for salaries.

RULES.

As stated in my last report, a committee was appointed to revise the Rules of Practice. Their recommendations were published in the OFFICIAL GAZETTE and further amendment was found advisable in view of suggestions received from a number of attorneys practising before this Office. The revised rules were, with the approval of the Secretary of the Interior, adopted to be effective January 1, 1916.

In the new rules the practice has been in many respects more clearly stated, and the procedure with reference to certain classes of appeals and in interferences has been simplified.

THE PATENT OFFICE BUILDING.

The crowded condition existing in this Office, which has frequently been called to the attention of Congress, is steadily growing worse. The patent copies kept for sale, to the number of about forty-seven millions, are scattered all over the Office. This fact increases enormously the difficulty of "pulling" them. Moreover, as they are stacked upon wooden shelves and are exposed, the danger of fire is very serious.

The new building for the use of the Department of the Interior now being erected in the square bounded by F, G, Eighteenth, and Nineteenth streets in all probability will be ready for occupancy near the end of the year. The removal of the offices of the Secretary of the Interior from the Patent Office Building and of the General Land Office from the building now occupied by it to the new building will enable the Patent Office to expand, and thus have relief from the congested conditions which in some parts of the Office have become almost unendurable.

There is no doubt that much could be done to increase the safety of the employees and property of this Office in case of fire. Moreover, when the new building for the Interior Department is completed and a large part of the Land Office Build-

ing, as is now contemplated, turned over to the Patent Office, it will require considerable remodeling to make the best use of the space available. I therefore ask Congress to appropriate \$2,500 for the preparation of plans, so that the work may be proceeded with as soon as the additional space is placed at our disposal.

SCIENTIFIC LIBRARY.

The collection of books, periodicals, and foreign patents in the Library of the Patent Office is of immeasurable value to the examining corps, inventors, manufacturers, and attorneys, but, owing to the small force available for reclassifying, indexing, and assembling the material at hand, we have experienced considerable difficulty in putting it in condition for ready reference. The library contains more than seventy-five thousand volumes of scientific works and more than two million foreign patents. There should be in charge of a library of the importance and value of the Patent Office Library a librarian of wide experience and special training. It is believed that he should be familiar with the art of making searches and should be selected from the examining corps. The present salary, \$2,000, is less than the salary of a Second Assistant Examiner. Any member of the corps appointed to the place will seek to be promoted out of it. In order to avoid this difficulty and to keep a well-trained man in the position, the salary of the Librarian should be increased to that of a Principal Examiner, \$2,700 a year.

We have in the Library a complete set of German patents not at present available for use, but which would be of great value if bound according to the classification of the German Patent Office. They would fill 2,100 large volumes. The estimate of the Public Printer for binding these patents is \$16 a volume, a total of about \$33,000. I have not been able to have this work done with the funds provided for binding. I ask that a special appropriation be made for this purpose.

LEGISLATION.

Personnel.

In view of the fact that legislation of great importance to proper development of the plan to reorganize the examining corps in the Patent Office is at this time pending in the House of Representatives after passage through the Senate on December 16, 1915, it is deemed important to include in this report the explanation of the legislation asked for, found in the report of last year. It will be remembered that the bill now before the House of Representatives passed both the House and Senate last year and failed to become a law because of an oversight.

The examining corps in the Patent Office is composed of an Examiner of Classification, an Examiner of Interferences, an Examiner of Trade-Marks, four Law Examiners, forty-three Principal or Primary Examiners, and three hundred and

thirty-four Assistant Examiners. Of the Assistant Examiners sixty-three are paid \$2,400 a year, seventy-three are paid \$2,100 a year, eighty-eight are paid \$1,800 a year, and one hundred and ten are paid \$1,500 a year. It will be noted that the number of Assistant Examiners receiving only \$1,500 a year is equal to the sum total of the Law Examiners, the Primary Examiners, and those Assistant Examiners receiving \$2,400 a year. This disproportion of the number in the lowest grade to those in the higher grades slows down promotions. This has contributed materially to induce ambitious young men to leave the Office after they have been admitted to the bar. On an average, one Assistant Examiner to each examining division resigns every two years. This is a serious handicap.

It is urged that the examining corps be reorganized by reducing the number in the lower grades, so as to make them equal.

The cost of such changes applied to the present force would be about twenty-three thousand dollars.

I have, however, asked Congress to make the number of the four grades eighty-six, which would increase the number of Assistant Examiners by ten, and would increase the pay roll by about forty-two thousand dollars. As stated above, the bill which when finally passed would accomplish this reorganization has passed the Senate during the present Congress and has been reported favorably by the Committee on Patents of the House.

No increase in the number of examining divisions is recommended. While it is difficult for the Primary Examiners to oversee the work of more than six or seven Assistant Examiners, as must be done now in the larger divisions, the advantage to be gained by reducing the number of Assistant Examiners in these large divisions must be balanced against and is believed to be outweighed by the inconvenience of increasing the number of divisions, with the consequent splitting up of the classes of invention among the different Primary Examiners. It is believed, however, that if the number of Law Examiners, who are substantially of the same rank as the Primary Examiners, were increased a large amount of supervisory work in addition to what is now being done, as indicated below, could be accomplished under the direction of the Commissioner. This supervisory work would be directed toward unifying the practice in the different divisions to the end that there may be a more speedy prosecution of applications and more certainty of arriving at correct conclusions.

The present Board of Examiners-in-Chief consists of three members, two of whom constitute a quorum. An increase of two members is necessary, and for three reasons:

1. The number of cases appealed is so large that there is more work than three men can properly dispose of, and it is increasing. At present a Second Assistant Examiner is detailed to assist the members of the board in their work.

2. Where because of the necessary absence of one member an appeal is heard by two members, in the

event of a divided board it is the uniform practice to set down cases for rehearing before the full board. This increases the work of the Office and the cost to the applicant. With five Examiners-in-Chief, three of whom constitute a quorum, this difficulty would be obviated.

3. The enforced absence of two members of the board at one time suspends the work of the board. In the event of serious and protracted illness this would cause great inconvenience.

The number of interferences which must be passed upon by the Examiner of Interferences is so large that it is impossible for him personally to examine the records submitted. It is therefore proposed to divide the work between two Examiners of Interferences, one of whom shall take the contested cases in trade-marks and the other the interferences involving inventions. I ask Congress to provide an additional Examiner of Interferences for this purpose.

The act making appropriation for the sundry civil expenses of the Government contains a provision under the heading of "Public printing and binding" as follows:

And no more than an allotment of one-half of the sum hereby appropriated shall be expended in the first two quarters of the fiscal year, and no more than one-fourth thereof may be expended in either of the last two quarters of the fiscal year, except that, in addition thereto, in either of said last quarters, the unexpended balances of allotments for preceding quarters may be expended.

Under the provisions of this act all printing of patents granted by the Office is done by the Public Printer. The patents are printed in the traditional form, and no provision is made for issuing them in any other form. Therefore unless the work may be done by the Public Printer patents cannot be granted. The general patent statute, however, provides that patents shall be granted after due proceedings have been had, which include the payment of a final fee within the time prescribed by the statute, and section 4885 expressly provides that the patent shall be granted in not less than three months after the payment of the final fee. If, therefore, the portion of the appropriation available at any time is exhausted, the Commissioner may find himself unable to comply with the provisions of the law as to the granting of patents because of the foregoing provision respecting the use of the appropriation.

If this difficulty should arise in the fall before Congress has convened or in the spring after a short session, the Office might be thrown into confusion, and the rights of patentees might be seriously jeopardized. I would, therefore, suggest that to the above-quoted passage from the appropriation act there be added the proviso that it shall not apply to the printing of Letters Patent for inventions.

Section 4934 of the Revised Statutes requires the payment of a fee of fifteen dollars upon the filing of each original application and a fee of twenty dollars upon the issuance of each patent. The cost of printing the patent after the examination of the application has been completed is much less than twenty dollars. The cost to the Office of the

prosecution of applications is considerably more than fifteen dollars. It is believed that if the filing fee were made twenty dollars, and the final fee made fifteen dollars, no substantial falling off in the number of applications would be experienced. As about forty per cent. of the applications filed do not eventuate into patents, the increase in the receipts of the Office by the readjustment of fees suggested would probably exceed \$125,000.

Attorneys.

It has been suggested many times that the privilege of practising before the Office should be granted only after examination similar to examinations held for admission to the bar. It is believed that this requirement would be too severe, as many persons not specially trained in the law and without any particular educational advantages may by careful study of the practice and of the useful arts learn adequately to prosecute applications. Fundamentally knowledge of the invention is more important than knowledge of the rules and is often possessed by men of a type of mind which does not acquire legal knowledge readily.

Last year, toward the end of the session, a bill was passed by the Senate and failed to pass the House of Representatives, which declared it to be unlawful for any person, firm, or corporation practising before the Patent Office to use the name of any member of either House of Congress or of any officer of the Government to advertise said business. I recommend that a law be enacted in the terms of this bill, (S. 7427, 63d Congress, 3d Session.) The attorneys who make use of letters from Members of Congress for purposes of advertising are not as a class entitled to be commended to their constituents. A recent investigation showed one concern in Washington which had pending for different applicants 94 applications for nutlocks. This is doubtless an exceptional instance; but it is nevertheless true that these advertisers take applications which conflict without considering the fact that they are representing conflicting interests. They make searches which careful examination will show to be inadequate and inaccurate, and they induce people whose circumstances they do not know to file applications both in this country and abroad which no attorney should permit a client to file. In this way they collect hundreds of thousands of dollars every year from people scattered all over the United States, and, on the whole, people of the poorer class. The Office never recommends these concerns. I trust the bill referred to may pass.

Payment and refundment of fees.

On pages 186, 187, and 188 of the Report of the Investigation of the United States Patent Office, made by the President's Commission on Economy and Efficiency in December, 1912, (62d Congress, 3d session, H. R. Document No. 110,) will be found some valuable recommendations regarding the payment of fees into the Patent Office and the refundment of such fees as were paid by mistake or were

in excess of what was required by law. The subjects therein discussed should receive congressional action in the interest of economy and efficient administration.

PAYMENT OF FEES.

Section 4935, R. S.

Patent fees may be paid to the Commissioner of Patents, or to the Treasurer, or any of the assistant treasurers of the United States, or to any of the designated depositories, national banks, or receivers of public money, designated by the Secretary of the Treasury for that purpose; and such officer shall give the depositor a receipt or certificate of deposit therefor. All money received at the Patent Office, for any purpose, or from any source whatever, shall be paid into the Treasury as received, without any deduction whatever.

The purpose of the proposed amendment to section 4935, Revised Statutes, is to eliminate the provision for payment by Treasury certificate of deposit. Less than three per cent. of the patent fees are paid by certificate of deposit, and this method of payment is a source of confusion and trouble. Under the regulations of the Treasury Department these certificates when issued are forwarded by the depository to the Patent Office, and the depositor is therefore without means to control the actual time of payment into the Patent Office other than to receive the benefit of payment as of the date upon which the deposit is made.

The weekly issues of patents are made up of cases in which the final fees have been received by the Office not later than Thursday. Under the rules of the Patent Office the patents bear date as of the fourth Tuesday following the close of the issue, the intervening time being required to lithograph and engross the patent papers. It has happened in many cases that the failure to issue a patent upon a date arranged for by the inventor was due to the delay of the depository in forwarding to this Office the certificate of deposit. For instance, an inventor residing in Chicago will make a payment of his final fee at the subtreasury on Monday, expecting that the patent will be in the issue which closes on the following Thursday; but if the depository delays the transmission of this certificate until too late to reach the Office by Thursday the issue of the patent goes over one week, very often to the inconvenience and disappointment of the inventor, and it will be several days before the unfavorable condition becomes known to the inventor, at which time it will be too late to correct the error. In numerous other cases there has been a failure of the depository to date the certificate, and this necessitates correspondence and further delay in the issuance of the patent, for the fee cannot be credited as having been paid unless the date of deposit thereof be shown.

When a certificate of deposit is used to pay the filing fee of an application, a bad situation sometimes

Section 4935, R. S. (Proposed Amendment.)

Patent fees shall be paid to the Commissioner of Patents, and the Commissioner, or such person as he shall deputize, shall make daily deposits in some bank in the District of Columbia, to be designated by the Secretary of the Treasury for this purpose, of all moneys received as patent fees; and shall make deposits of such fees with the Treasurer of the United States, at such times and in such manner as the latter shall direct; and shall also make monthly reports in aggregate to the Secretary of the Treasury of all remittances received and moneys refunded.

arises. An inventor residing, say, in one of the Pacific Coast cities will lodge in this Office an application for patent, complete except as to the fee, and on the last day of the year within which he could make payment of the fee under the law he will make a deposit of the fee with a depository. Eight or ten days thereafter and after the expiration of the year the Office will receive the certificate, but must antedate the completion of the application to the date of the deposit of the fee. This requires that the application be given a fractional serial number and otherwise disarranges the continuity of our records. When a final fee is paid by an inventor under similar circumstances, it acts to prolong by eight or ten days the period during which the application is pending, contrary to the purposes of the law.

Payment by certificate of deposit is discriminatory and unfair to inventors residing in small places remote from Washington in that such inventors, not having access to a depository, are required to pay their fees in the form of remittance by cash, bank draft, or money order such a time in advance as to insure the receipt of the remittance within the lawful period. It is therefore apparent that section 4935, Revised Statutes, should be amended so as to require all fees to be paid directly into the Patent Office.

REFUNDMENT OF FEES.

Section 4936, R. S.

The Treasurer of the United States is authorized to pay back any sum or sums of money to any person who has through mistake paid the same into the Treasury, or to any receiver or depository, to the credit of the Treasury, as for fees accruing at the Patent Office, upon a certification thereof being made to the Treasurer by the Commissioner of Patents.

Section 4936, R. S. (Proposed Amendment.)

The Commissioner of Patents is authorized to refund any money to any person who has paid the sum for fees to the Patent Office through mistake, or in excess, but no refundment of any money shall be made after the expiration of five years from the date of payment.

A decision of the Comptroller of the Treasury, dated November 23, 1911, (18 Comp. Dec., 368,) in the matter of refundments by the Patent Office, has placed upon the Office a very great burden and has increased considerably the cost of administration. Prior to the decision referred to section 4936, Revised Statutes, was considered to have created an appropriation out of which the Financial Clerk of the Patent Office was authorized to refund such fees as were paid into the Office by mistake or in excess. The old practice is found to have been in operation for about forty years without question. Under the new practice the Patent Office certifies to the Treasury Department an abstract of all fees received by the Patent Office, including thousands of five-cent items. This abstract, which is made monthly, comprises between four hundred and five hundred pages and embodies the name of each remitter, his address, the purpose for which the fee was paid into the Office, and the amount thereof. After such abstract of fees received has been sent to the Treasury the Commissioner of Patents certifies to the Treasurer a list of the comparatively few cases wherein refundments of excess fees or fees paid by mistake

are to be made. The certificate of refundment and the abstract of payments are audited, and thereafter a Treasury warrant for the amount to be refunded is drawn. About six thousand of such warrants are issued annually. Three-fourths of the number are for sums of less than one dollar. The number of warrants for five cents each run into the hundreds. The gross receipts of the Patent Office for the year ended December 31, 1914, were \$2,264,419.76, and the refundments during the same year amounted to \$12,526.94. This method of auditing and refunding by warrants through the Treasury is estimated to cost one dollar for each transaction—that is, for each warrant—so that, to quote from the report (p. 187) mentioned—

it will be seen that while the practice established under the ruling of the Comptroller conforms to the requirement of the law, the expense is out of proportion to the benefits.

The Commission referred to recommended that the law be amended so as to authorize refundments to be made by the Patent Office.

In view of the fact that persons who pay money into the Patent Office by mistake or in excess of the amount required are notified promptly that refundment will be made upon request it is believed that there should be some limitation upon the time within which such refundments can be made. For this reason it is proposed to add to section 4936, as amended, a provision that refundments on account of fees paid by mistake or in excess shall not be made after the expiration of five years from the date of payment. This limitation will enable the Office to close its transactions and not be required to make reference to records which in future years may not be available. A requirement that refundment shall be made within a reasonable and definite time after payment will also eliminate the liability to make duplicate refundments.

These items enter very largely into the operations of the Patent Office, and the public business will be facilitated, at a reduced cost, if sections 4935 and 4936, Revised Statutes, are amended in the particulars pointed out.

Assignments.

One of my predecessors—Commissioner Benton J. Hall—in his annual report to Congress for the year 1887 said:

Section 4898 provides that an assignment, grant or conveyance shall be void as against any subsequent purchaser or mortgagee for a valuable consideration without notice unless such instrument be recorded in the Patent Office within three months from the date thereof. In my opinion, this requirement operates unjustly in providing that an assignment, if recorded after three months from the date thereof, shall have no effect as constructive notice to a subsequent purchaser or mortgagee for a valuable consideration. The provision in my judgment should be modified so as to declare that while the assignment should be valid without recording for the period of three months from and after its date, thereafter it should be void against subsequent purchaser or mortgagee for a valuable consideration without notice, unless it be recorded in the Patent Office prior to the date of such subsequent purchase or mortgage, so that should the assignee fail through forgetfulness or accident to file his instrument or assignment within three months he might still file it for record at a subsequent period, and it should then give constructive notice from the date of its actual filing.

I concur in the views expressed here and the suggested amendment to the law to carry it into effect.

Under section 4934 of the Revised Statutes, originally enacted in 1870, the maximum fee for recording each "assignment, agreement, power of attorney, or other paper" was three dollars. Assignments have been and are now being received and recorded weekly that embody hundreds of patents and thousands of words. Recently, for example, there were recorded eight writings, three of which contained 966 patents, applications, and trademarks, and the legal fees for recording the eight writings were thirty dollars under the Revised Statute mentioned, as amended May 27, 1908. The actual time occupied by the clerical force in verifying and supplying missing data of these patents, digesting, indexing, recording, and comparing was 172 hours, equivalent to the time of one clerk for twenty-four and four-sevenths days. At a minimum fee of fifty cents per hour legally chargeable for this class of work the cost to the Office for recording these writings was eighty-six dollars, nearly three times the amount paid therefor.

In addition to the number of words in writing presented for record, a nominal fee for each additional patent, application, design, trade-mark, or invention enumerated therein should, in my judgment, be charged. It is therefore suggested that twenty-five cents be charged for each of said additional items. I may add that this recommendation was included in the report to Congress of the investigation of the United States Patent Office by the President's Commission on Economy and Efficiency in December, 1912, and reference is made therein to this matter on pages 185-196.

It is therefore recommended that section 4934 be suitably amended to provide for this change in fees. A proper amendment will be submitted at an early date for consideration of Congress.

Assignees' index.

In 1870 a special appropriation was made by Congress for the purpose of indexing all prior recorded deeds, assignments, etc., under the name of the inventor, and all assignments recorded since that date have been so indexed. Under this law, pursuant to the records established thereby, it is necessary to know at least the name of the applicant or inventor to make the necessary search to run down a chain of title. Experience has shown that it is frequently necessary or desired by attorneys, inventors, and the general public to ascertain what patents are owned by a particular individual, firm, or corporation.

There is no authentic manner at present in which such search can be made except in each of the volumes wherein are recorded assignments and the data of the application, where they are indexed from assignor to assignee. It is therefore very desirable that a consolidated assignees' index be established and kept up to date in the Patent Office for this purpose. Requests are frequently made for such an authentic, verified, and checked index from which a reliable search may be made to ascertain what patents are owned by given corporations, firms, or individuals. To perform this service, it is

believed that three more index clerks will be required in addition to those now employed in the Assignment Division, and for the indexing covering the past seventeen years five or six additional clerks will probably be needed to bring up its arrearage within a reasonable time.

I will therefore submit at an early date to Congress a request for authority to establish this index and a request for additional clerks for this purpose.

Clerks of courts to file decrees.

I would also suggest that the law be amended to require the clerks of the Federal courts to file in this Office a copy of every decree granting or refusing an injunction in a suit for infringement of a patent and every final decree affecting the validity of a patent.

If such copies were filed in this Office and placed in the file of the patent, it would enable any one to determine the litigation in which this patent had been involved, a thing which is now practically impossible, since many of the decisions of the lower courts are not published.

Protection of designs.

The present method of protecting designs is cumbersome and so costly that designers make little use of it. The problems of a court in passing upon the validity and infringement of design patents are so simple, generally speaking, as not to require the assistance of expert opinion. Little or nothing, therefore, is gained by examination prior to the granting of a patent. It is recommended that protection of designs be put upon a registration basis and the fees be greatly reduced.

Subpœna duces tecum.

The present statute does not provide for *subpœna duces tecum* in interference cases. This remedy should be provided by amending section 4906 of the Revised Statutes by adding thereto the statement that the provisions of section 869 of the Revised Statutes with relation to the issuance of a *subpœna duces tecum* shall apply to contested cases in the Patent Office.

Applications filed by attorneys.

Under date of September 15, 1914, I wrote to a firm of attorneys practising before the Office a let-

ter subsequently published in the *Scientific American* of September 26, 1914, page 246, as follows:

I am accepting two applications filed by you as attorneys to-day, wherein the inventor's name to the petition and specification is signed by you as attorneys and the oath is made by a member of your firm. The time for filing these applications expires under the Convention to-morrow. Therefore, in filing these applications in the form in which you have presented them, you are doing all that you can to save your client's rights, and in permitting them to be filed and giving them a serial number and date of filing of to-day, I am doing all I can with the same end in view. If this should not prove to be effective, the loss must be attributed to the troubled conditions of Europe and not laid at your door or that of the Office.

It will be necessary before patents are granted that applications be filed executed by the inventor himself, as provided in section 4888. Whether the applications to be filed can be tied to the applications which you are filing to-day under the provisions of section 4887 is, of course, a matter which only a court of last resort can determine. *Ex parte Tropenas* (90 O. G., 749) to the contrary notwithstanding, I think it a possible construction of section 4887 that its requirements may be satisfied by the filing of applications executed by an attorney.

I hope, however, in case there are a number of applications executed by attorneys, that Congress may be induced to validate patents granted or to be granted upon proceedings indicated above.

Pursuant to this letter there have been filed in this Office 263 applications signed by attorneys. In 132 of these applications substituted papers signed by the inventor have since been received. From among these 132 applications 33 patents have been granted as follows: Patents Nos. 1,125,794, 1,128,972, 1,128,973, 1,136,521, 1,140,137, 1,140,296, 1,142,222, 1,144,192, 1,144,905, 1,148,420, 1,150,414, 1,150,682, 1,151,928, 1,153,774, 1,153,821, 1,154,933, 1,156,295, 1,158,269, 1,159,264, 1,160,268, 1,161,147, 1,161,161, 1,161,254, 1,161,723, 1,161,744, 1,161,866, 1,162,226, 1,162,496, 1,165,128, 1,167,341, 1,168,748, 1,169,514, and 1,169,652. In addition to these patents two applications which have been allowed and the fees paid therein will result in patents on February 22d. Nine other applications have reached the stage of allowance, where they await only the payment of the final fee before the patent will be granted, and one application has become forfeited.

These applications were accepted in good faith under conditions which were beyond control, and it is recommended that Congress validate the patents granted and to be granted.

Respectfully submitted.

THOMAS EWING,
Commissioner of Patents.

ALPHABETICAL LIST

OF

PATENTEES FOR THE YEAR 1915.

[Patentees of Designs, Trade-Marks, Labels, and Prints, and parties who have filed Disclaimers follow this in separate indexes, but precede the Alphabetical List of Inventions.]

 Austin Organ Company. (See Austin, Basil G., assignor.)
 Austin Organ Company. (See Austin, John T., assignor.)
 Austin, Sydney B., Sudbrook Park, Md., assignor, by mesne assignments, to F. L. Huidekoper, trustee, Washington, D. C. Calculating-machine. No. 1,136,391; Apr. 20; Gaz. vol. 213; p. 900.
 Austin, Thomas A. (See Arnold and Austin.)
 Austin, Walter M., Swissvale, and J. N. Mahoney, Wilkesburg, Pa., assignors to Westinghouse Electric and Manufacturing Company. Circuit-interrupting device. No. 1,156,655; Oct. 12; Gaz. vol. 219; p. 490.
 Austin, William, Scranton, assignor of one-half to M. W. O'Boyle, Pittston, Pa. Track-stop. No. 1,137,178; Apr. 27; Gaz. vol. 213; p. 1217.
 Austin, William, Scranton, assignor of one-half to M. W. O'Boyle, Pittston, Pa. Valve mechanism for air-brake systems. No. 1,137,179; Apr. 27; Gaz. vol. 213; p. 1218.
 Austin, William, Scranton, assignor of one-half to M. W. O'Boyle, Pittston, Pa. Safety automatic train-stopping means. No. 1,144,454; June 29; Gaz. vol. 215; p. 1307.
 Austin, William A., Lima, Ohio, assignor to The Baldwin Locomotive Works, Philadelphia, Pa. Means for operating the clutches of rack-locomotives. No. 1,124,990; Jan. 12; Gaz. vol. 210; p. 672.
 Austin, William A., and S. S. Lawson, assignors to Lima Locomotive Corporation, Lima, Ohio. Screw reverse-gear for engine-valves. No. 1,144,455; June 29; Gaz. vol. 215; p. 1507.
 Austin, Wilson A., *et al.* (See Anderson, Charles O., assignor.)
 Austin, Wilson A., assignor of one-half to A. T. Austin, Omaha, Nebr. Railway-switch-operating mechanism or the like. No. 1,128,570; Feb. 16; Gaz. vol. 211; p. 756.
 Austin, Wilson A., assignor of one-half to A. T. Austin, Omaha, Nebr. Railway-switch and the like. No. 1,148,564; Aug. 3; Gaz. vol. 217; p. 29.
 Auth, Charles, New York, assignor to E. L. Auth, Brooklyn, N. Y. Annunciator-drop. No. 1,142,477; June 8; Gaz. vol. 215; p. 527.
 Auth, Emma L. (See Auth, Charles, assignor.)
 Authier, Joseph M. (See Cordeau, Adolphe, assignor.)
 Auto Air-Rotar Company. (See Ten Eyck, Frank E., assignor.)
 Auto Device Manufacturing Company. (See Furmidge, Samuel, assignor.)
 Auto-Marine Equipment Co. (See McCarthy, Thomas J., assignor.)
 Auto Parts Mfg. Co., The. (See Sonnichsen, Andreas M., assignor.)
 Auto Pneumatic Action Company. (See Danquard, Thomas, assignor.)
 Auto Pneumatic Action Company. (See Keeley, William J., assignor.)
 Auto Pneumatic Action Company, The. (See Southgate, Louis W., assignor.)
 Auto Pneumatic Action Company, The. (See Staples, Sidney J., assignor.)
 Auto Stopper Company. (See Hicks, John A., assignor.)
 Auto Strop Company. (See Fuller, Franz A., assignor.)
 Auto Strop Company. (See Gaisman, Henry J., assignor.)
 Auto Strop Company. (See Simms, Harold H., assignor.)
 Auto Trunk and Acme Suit Case Mfg. Co., The. (See Zieve, Abraham, assignor.)
 Auto Utilities Manufacturing Company. (See Breldert, George C., assignor.)
 Automatic Air Brake Company. (See Taft, Sydney E., assignor.)
 Automatic Appliance Company. (See Bordeaux, Foster J., assignor.)
 Automatic Appliances and Manufacturing Corporation. (See Webber and Slater, assignors.)
 Automatic Arms Company, The. (See Lewis, Isaac N., assignor.)
 Automatic Can Filling Machinery Company. (See Small, Chesley T., assignor.)
 Automatic Cashier Corporation, The. (See Hibner, Joseph F., assignor.)
 Automatic Chemical Closet Company. (See Scarborough and King, assignors.)
 Automatic Chemical Fire Extinguisher and Alarm Company. (See Brodton, Edward R., assignor.)
 Automatic Coin Wrapping Machine Company. (See Batdorf, Charles S., assignor.)
 Automatic Devices Company. (See Knutson, Alfred W., assignor.)
 Automatic Electric Company. (See Blessing, John G., assignor.)
 Automatic Electric Company. (See Davis, Bethuel M., assignor.)
 Automatic Electric Company. (See Erickson, John, assignor.)
 Automatic Electric Company. (See Fales, Edward D., assignor.)
 Automatic Electric Company. (See Hovland, Henry, assignor.)
 Automatic Electric Company. (See Hulit, John A., assignor.)

Alphabetical list of patentees—Continued.

- Babcock, Edward O., Niagara Falls, N. Y. Machine for making paper-board. No. 1,143,931; June 22; Gaz. vol. 215; p. 1094.
- Babcock, Frank H., Punxsutawney, Pa. Auto wheel attachment. No. 1,130,366; Mar. 2; Gaz. vol. 212; p. 182.
- Babcock, Garrison, Rochester, assignor, by mesne assignments, to F. C. Stevens, Attica, N. Y. Multiple-contact relay. No. 1,133,786; Mar. 30; Gaz. vol. 212; p. 1554.
- Babcock, Garrison, Chicago, Ill., assignor to F. C. Stevens, Attica, N. Y. Relay device. No. 1,133,787; Mar. 30; Gaz. vol. 212; p. 1555.
- Babcock, Garrison, assignor to Telechronometer Company, Rochester, N. Y. Telephone-exchange system. No. 1,138,174; May 4; Gaz. vol. 214; p. 159.
- Babcock, Garrison, assignor to The Telechronometer Company, Rochester, N. Y. Telephone system. No. 1,138,175; May 4; Gaz. vol. 214; p. 160.
- Babcock, Ira J., Chicago, Ill. Smoke-indicator. No. 1,135,651; Apr. 13; Gaz. vol. 213; p. 599.
- Babcock, Wilbert L., assignor to The Waterbury Brass Goods Corporation, Waterbury, Conn. Hinge construction for face-plates and the like. No. 1,130,241; Mar. 2; Gaz. vol. 212; p. 138.
- Babcock & Wilcox Company, The. (See Bell, John E., assignor.)
- Babcock & Wilcox Company, The. (See Chester, Wilfred D., assignor.)
- Babcock & Wilcox Company, The. (See Harter, Isaac, assignor.)
- Babcock & Wilcox Company, The. (See Irish, David J., assignor.)
- Babcock & Wilcox Company, The. (See Jacobus, David S., assignor.)
- Babcock & Wilcox Company, The. (See Jacobus and Lewis, assignors.)
- Babcock & Wilcox Company, The. (See Mosher, Charles D., assignor.)
- Babcock & Wilcox Company, The. (See Peabody, Ernest H., assignor.)
- Babcock & Wilcox Company, The. (See Peabody and Irish, assignors.)
- Babcock & Wilcox Company, The. (See Rosenthal, James H., assignor.)
- Babcock & Wilcox Company, The. (See Sewall, Minott W., assignor.)
- Babcock & Wilcox Company, The. (See Sewall and Jacobus, assignors.)
- Babcock & Wilcox Company, The. (See Sneddon, James P., assignor.)
- Babcock & Wilcox Company, The. (See Wells, Edward H., assignor.)
- Babcock & Wilcox Company, The. (See Wolff, John, assignor.)
- Babcock, William J., *et al.* (See Sinclair, George, assignor.)
- Babek, Aloysius S., Waco, Tex. Agitator. No. 1,129,158; Feb. 23; Gaz. vol. 211; p. 997.
- Babich, George G., New York, N. Y. Burial-vault. No. 1,153,535; Sept. 14; Gaz. vol. 218; p. 455.
- Bablon, René, Les Lilas, France. Construction of cocks. No. 1,140,938; May 25; Gaz. vol. 214; p. 1240.
- Babos, Lacey, Winslow, Wash. Hose-coupling. No. 1,136,502; Apr. 20; Gaz. vol. 213; p. 940.
- Babos, Lacey, Winslow, Wash. Hose-coupling. No. 1,151,851; Aug. 31; Gaz. vol. 217; p. 1451.
- Bach, John A., St. Paul, Minn. Stringed musical instrument. No. 1,152,925; Sept. 7; Gaz. vol. 218; p. 200.
- Bach, William F. (See Cooley and Bach.)
- Bacharach, Abe, *et al.* (See Schwarz, Julius, assignor.)
- Bacharach, Emile M., *et al.* (See Brown, David L., assignor.)
- Bachardy, Stephen J., Newark, N. J. assignor of one-half to A. De Dominicis, New York, N. Y. Money-paying machine. No. 1,149,886; Aug. 10; Gaz. vol. 217; p. 604.
- Bache, John H. V., Boundbrook, N. J. Sanitary tent. No. 1,123,657; Jan. 5; Gaz. vol. 210; p. 157.
- Bache, Leigh S., assignor to The Graphite Lubricating Company, Boundbrook, N. J. Self-lubricating bearing. No. 1,132,758; Mar. 23; Gaz. vol. 212; p. 1148.
- Bache, Leigh S., assignor to The Graphite Lubricating Company, Boundbrook, N. J. Floating bearing. No. 1,132,759; Mar. 23; Gaz. vol. 212; p. 1148.
- Bache, Leigh S., assignor to The Graphite Lubricating Company, Boundbrook, N. J. Oilless spindle. No. 1,153,592; Sept. 14; Gaz. vol. 218; p. 475.
- Bache, Leigh S., assignor to W. W. Smalley, Boundbrook, N. J. Egg-package. No. 1,149,489; Aug. 10; Gaz. vol. 217; p. 459.
- Bacher, Peter, Canton, Ohio. Making collapsible cores. No. 1,139,325; May 11; Gaz. vol. 214; p. 599.
- Bacher, Peter, Canton, Ohio, assignor of one-third to A. Hoeffer, Hammononton, N. J., and one-third to J. Yemiker, Akron, Ohio. Railway-joint. No. 1,133,694; Mar. 30; Gaz. vol. 212; p. 1523.
- Bacher, Solomon, Wolford, N. D. Bearing-bolt for plowcolters and the like. No. 1,166,309; Dec. 28; Gaz. vol. 221; p. 1379.
- Bachler, Frederick R., assignor to Kieselguhr Company of America, Los Angeles, Cal. Decolorizing liquids. No. 1,131,308; Mar. 9; Gaz. vol. 212; p. 543.
- Bachman, Clayton S., Fullerton, Pa. Vending-machine. No. 1,164,911; Dec. 21; Gaz. vol. 221; p. 846.
- Bachman, Clayton S., Fullerton, Pa., assignor to Automatic Vending Machine Company, Belvidere, N. J. Vending-machine. No. 1,125,037; Jan. 19; Gaz. vol. 210; p. 724.
- Bachman, Frank W. (See Osgood and Bachman.)
- Bachman, Franklin H. (See Bachman, Reuben H. and F. H.)
- Bachman, Hugo J., Denver, Colo. Internal-combustion engine. No. 1,155,699; Oct. 5; Gaz. vol. 219; p. 130.
- Bachman, Reuben H. and F. H., Allentown, Pa. Antidrip subframe for vehicles. No. 1,148,426; July 27; Gaz. vol. 216; p. 1277.
- Bachmann, Siegmund, Chicago, Ill. Box. No. 1,157,285; Oct. 19; Gaz. vol. 219; p. 741.
- Bachrach, Arthur N., assignor to S. L. Bachrach, New York, N. Y. Necktie. No. 1,163,308; Dec. 7; Gaz. vol. 221; p. 201.
- Bachrach, Samuel L. (See Bachrach, Arthur N., assignor.)
- Back, Alfred de, Essen-on-the-Ruhr, Germany, assignor to Goldschmidt Detinning Company, New York, N. Y. Modification of the method for recovering iron and steel from waste enameled articles. No. 1,126,621; Jan. 26; Gaz. vol. 210; p. 1327.
- Backer, Arthur J., Syracuse, N. Y. Folding table. No. 1,132,061; Mar. 16; Gaz. vol. 212; p. 844.
- Backert, John C., New York, N. Y. Cutter. No. 1,136,085; Apr. 20; Gaz. vol. 213; p. 790.
- Backert, John C., New York, N. Y. Cutting-machine. No. 1,137,251; Apr. 27; Gaz. vol. 213; p. 1245.
- Backman, William, Beacon, Iowa. Internal-combustion engine. No. 1,138,271; May 4; Gaz. vol. 214; p. 192.
- Backstrand, Clarence F., and C. M. Hoag, Riverside, Cal. Calculator. No. 1,157,609; Oct. 19; Gaz. vol. 219; p. 851.
- Backus, Cornelius D., Belva, W. Va. Spring-wheel. No. 1,162,545; Nov. 30; Gaz. vol. 220; p. 1630.
- Backus, Edward E., Chicago, Ill., assignor, by mesne assignments, to Hall Switch & Signal Company. Signaling system. No. 1,135,487; Apr. 13; Gaz. vol. 213; p. 540.
- Backus, Henry N., Detroit, Mich. Crate-lock. No. 1,133,254; Mar. 30; Gaz. vol. 212; p. 1364.
- Backus, Henry N., Detroit, Mich. Delivery-crate. No. 1,152,366; Aug. 31; Gaz. vol. 217; p. 1629.
- Backus, John C., Smethport, Pa. Locking-clamp. No. 1,156,739; Oct. 12; Gaz. vol. 219; p. 518.
- Backus, Oscar E., Waukesha, Wis. Button. No. 1,127,847; Feb. 9; Gaz. vol. 211; p. 456.
- Backus, William H., Danielson, Conn. Rake-cleaner. No. 1,158,022; Oct. 26; Gaz. vol. 219; p. 1061.
- Bacon, Asa E., Yates Center, Kans. Hat-pin guard. No. 1,127,346; Feb. 2; Gaz. vol. 211; p. 237.
- Bacon, Charles F., Toledo, Ohio. Bug-eliminating machine. No. 1,144,019; June 22; Gaz. vol. 215; p. 1126.
- Bacon, Charles J. (See Brassert and Bacon.)
- Bacon, Charles J., Chicago, Ill. Boiler for utilizing waste heat. No. 1,138,346; May 4; Gaz. vol. 214; p. 220.
- Bacon, Dexter S., Minneapolis, Minn. Appliance for regulating teeth. No. 1,130,242; Mar. 2; Gaz. vol. 212; p. 138.
- Bacon, Frank R., Kalamazoo, Mich. Upholstering-machine. No. 1,159,885; Nov. 9; Gaz. vol. 220; p. 551.
- Bacon, Frederick J. (See Hewitt, Bernor, and Bacon.)
- Bacon, Joseph H., Cleveland, Ohio. Boiler. No. 1,151,750; Aug. 31; Gaz. vol. 217; p. 1413.
- Bacon, Nathaniel, assignor of one-half to S. A. Bodwell, Sanford, Me. Jack-stand. No. 1,127,159; Feb. 2; Gaz. vol. 211; p. 175.
- Bacon, Raymond F., Pittsburgh, Pa., assignor to Metals Research Company, New York, N. Y. Flotation of minerals. No. 1,140,865; May 25; Gaz. vol. 214; p. 1213.
- Bacon, Raymond F., Pittsburgh, Pa., assignor to Metals Research Company, New York, N. Y. Flotation of minerals. No. 1,140,866; May 25; Gaz. vol. 214; p. 1213.
- Bacon, Raymond F., Pittsburgh, Pa., assignor to Metals Research Company, New York, N. Y. Recovery of cuprous sulfid from ores, &c. No. 1,151,234; Aug. 24; Gaz. vol. 217; p. 1193.
- Bacon, Raymond F., Pittsburgh, Pa., assignor to Metals Research Company, New York, N. Y. Recovery of cuprous sulfid from ores, &c. No. 1,151,235; Aug. 24; Gaz. vol. 217; p. 1193.
- Bacon, Raymond F., Pittsburgh, Pa., assignor to Metals Research Company, New York, N. Y. Metallurgy of copper. No. 1,151,236; Aug. 24; Gaz. vol. 217; p. 1194.
- Bacon, Raymond F., and B. H. Nicolet, Pittsburgh, Pa., assignors to Acme Manufacturing Company, Chicago, Ill. Manufacture of catalysts. No. 1,152,591; Sept. 7; Gaz. vol. 218; p. 79.
- Bacon, Raymond F., R. T. Brooks, and C. W. Clark, assignors to Gulf Refining Company, Pittsburgh, Pa. Manufacture of gasoline. No. 1,131,309; Mar. 9; Gaz. vol. 212; p. 543.
- Bacon, Reginald H. S., and J. H. Mansell, assignors to The Coventry Ordnance Works, Limited, Coventry, England. Fuse. No. 1,145,051; July 6; Gaz. vol. 216; p. 28.
- Bacon, Reginald H. S., and J. H. Mansell, assignors to The Coventry Ordnance Works, Limited, Coventry, England. Fuse. No. 1,161,147; Nov. 23; Gaz. vol. 220; p. 1095.

- Basch, David, New York, N. Y. Hinge for ear-muffs. No. 1,149,806; Aug. 10; Gaz. vol. 217; p. 575.
- Basch, David, Schenectady, N. Y., assignor to General Electric Company. Protective device. No. 1,154,359; Sept. 21; Gaz. vol. 218; p. 774.
- Bascom, Joseph D., St. Louis, Mo. Tow-line. No. 1,149,807; Aug. 10; Gaz. vol. 217; p. 575.
- Bash, Ambrose. (See Bash, Charles W. and A.)
- Bash, Charles W. and A., Kansas City, Kans. Grain-car door. No. 1,140,100; May 18; Gaz. vol. 214; p. 913.
- Bashelier, Frank M., Jenkintown, assignor to Keystone Type Foundry, Philadelphia, Pa. Dumping-truck. No. 1,145,740; July 6; Gaz. vol. 216; p. 268.
- Bashlin, William M., Grove City, Pa. Removing rosin and turpentine from resinous woods. No. 1,136,994; Apr. 27; Gaz. vol. 213; p. 1151.
- Bashor, Ulla O., Dorris, Cal. Gem-setting. No. 1,131,593; Mar. 9; Gaz. vol. 212; p. 641.
- Basile, David, Bridgeport, Conn. Life-boat. No. 1,141,755; June 1; Gaz. vol. 215; p. 235.
- Basile, David E., New Britain, Conn. Life-boat device. No. 1,133,700; Mar. 30; Gaz. vol. 212; p. 1525.
- Baskerville, Charles, New York, N. Y. Refining animal and vegetable oils. No. 1,130,698; Mar. 9; Gaz. vol. 212; p. 334.
- Baskerville, William L. (See Cline and Baskerville.)
- Baskin, Edwin T., Independence, Mo. Glove. No. 1,156,517; Oct. 12; Gaz. vol. 219; p. 440.
- Baskin, Edwin T., Independence, Mo. Waist-closure. No. 1,156,518; Oct. 12; Gaz. vol. 219; p. 441.
- Baskin, Edwin T., Independence, Mo. Glove. (Reissue.) No. 14,025; Dec. 7; Gaz. vol. 221; p. 314.
- Basler, George, assignor to Basler Machinery Company, Lynn, Mass. Sole flexing and tempering machine. No. 1,154,961; Sept. 28; Gaz. vol. 218; p. 1007.
- Basler Machinery Company. (See Basler, George, assignor.)
- Basman, Anthony M., Detroit, Mich. Ventilator-hood. No. 1,126,348; Jan. 26; Gaz. vol. 210; p. 1227.
- Basrek, Tomo, Harrisburg, Pa. Rail-joint. No. 1,126,349; Jan. 26; Gaz. vol. 210; p. 1228.
- Bass, Charles P., Los Angeles, Cal. Ratchet driving mechanism for cutters. No. 1,141,682; June 1; Gaz. vol. 215; p. 212.
- Bass, James W., et al. (See Forsgard, Edward F., assignor.)
- Bass, Rubin. (See Rosen, Hyman, assignor.)
- Bass, Rubin, Brooklyn, N. Y. Apparatus for pressing velvet. No. 1,127,580; Feb. 9; Gaz. vol. 211; p. 360.
- Bass, Rubin, Brooklyn, N. Y. Pressing-cloth. No. 1,159,156; Nov. 2; Gaz. vol. 220; p. 258.
- Bass, Rubin, Brooklyn, N. Y. Velvet-presser. No. 1,161,283; Nov. 23; Gaz. vol. 220; p. 1146.
- Bass, Willard S., Wilton, Me. Moccasin. No. 1,139,153; May 11; Gaz. vol. 214; p. 543.
- Bass, William A., Rio Vista, Tex. Electric fly-trap. No. 1,159,157; Nov. 2; Gaz. vol. 220; p. 259.
- Bass, William W., Middle Inlet, Wis. Calendar attachment for clocks. No. 1,139,474; May 18; Gaz. vol. 214; p. 690.
- Bassett, Elmer, Shelbyville, Ind. Water-power plant. No. 1,157,922; Oct. 26; Gaz. vol. 219; p. 1025.
- Bassett, Elmer C., Milton, assignor to The Reece Button Hole Machine Company, Boston, Mass. Controlling device for sewing-machines. No. 1,147,670; July 20; Gaz. vol. 216; p. 984.
- Bassett, Harry P., Catonsville, assignor to The Spar Chemical Company, Baltimore, Md. Recovering potash from potassium-iron silicates. No. 1,159,464; Nov. 9; Gaz. vol. 220; p. 401.
- Bassett, J. Colby. (See Wheaton, Carl M., assignor.)
- Bassett, Pliny E., Worcester, Mass. Device for overcoming vibration in spindles. No. 1,162,125; Nov. 30; Gaz. vol. 220; p. 1486.
- Bassett, Rufus C., Comanche, Tex. Knee-protector. No. 1,131,816; Mar. 16; Gaz. vol. 212; p. 757.
- Bassett, William E., Fresno, Cal. Self-laying traction-track. No. 1,144,284; June 22; Gaz. vol. 215; p. 1220.
- Bassford, Thomas, St. Thomas, Ontario, Canada. Boat doing away with oars and rudder. No. 1,133,788; Mar. 30; Gaz. vol. 212; p. 1555.
- Bast, Joseph, Houston, Tex. Window-mounting. No. 1,160,366; Nov. 16; Gaz. vol. 220; p. 772.
- Basten, Peter J. (See Lee, John, assignor.)
- Baster, Harry C., Benton Harbor, Mich. Machine for crimping paper and the like. No. 1,136,086; Apr. 20; Gaz. vol. 213; p. 790.
- Bastian, August H., Hillsdale, Oreg. Combined weeder and cultivator. No. 1,144,314; June 22; Gaz. vol. 215; p. 1230.
- Bastian, Charles L., Chicago, Ill. Fluid-pressure-regulating valve. No. 1,161,917; Nov. 30; Gaz. vol. 220; p. 1412.
- Bastian, Charles O., London, England. Electrical resistance. No. 1,160,488; Nov. 16; Gaz. vol. 220; p. 816.
- Bastian, Frederick G., Buffalo, N. Y. Automatic train-stop. No. 1,128,932; Feb. 16; Gaz. vol. 211; p. 883.
- Bataille, Achille F., New York, N. Y. Gate for elevator-shafts. No. 1,129,537; Feb. 23; Gaz. vol. 211; p. 1130.
- Batchelder, Charles A., St. Albans, Me. Last. No. 1,162,330; Nov. 30; Gaz. vol. 220; p. 1557.
- Batchelder, Elmer R. (See Gallant, John E., assignor.)
- Batchelder, Frank R., Worcester, Mass. Sheath or scabbard. No. 1,131,196; Mar. 9; Gaz. vol. 212; p. 504.
- Batchelder, Frank R., Worcester, Mass. Cartridge-belt. No. 1,139,629; May 18; Gaz. vol. 214; p. 744.
- Batchelder, Frank R., assignor to Mills Woven Cartridge Belt Company, Worcester, Mass. Woven strap. No. 1,147,135; July 20; Gaz. vol. 216; p. 795.
- Batchelder, Fred A., Cambridge, Mass. Can-reshaping machine. No. 1,151,995; Aug. 31; Gaz. vol. 217; p. 1499.
- Batchelor, Telford C., Hay Mills, near Birmingham, England. Wire rope. No. 1,137,690; Apr. 27; Gaz. vol. 213; p. 1396.
- Batdorf, Charles S., Brooklyn, N. Y. Check-controlled liquid-dispensing apparatus. No. 1,135,251; Apr. 13; Gaz. vol. 213; p. 457.
- Batdorf, Charles S., Brooklyn, N. Y. Check-controlled dispensing apparatus. No. 1,135,252; Apr. 13; Gaz. vol. 213; p. 458.
- Batdorf, Charles S., Brooklyn, assignor to Automatic Coin-wrapping Machine Company, New York, N. Y. Paper tucking and wrapping mechanism. No. 1,130,244; Mar. 2; Gaz. vol. 212; p. 139.
- Batdorf, Charles S., Brooklyn, assignor to Automatic Coin-wrapping Machine Company, New York, N. Y. Coin-handling machine. No. 1,130,245; Mar. 2; Gaz. vol. 212; p. 140.
- Batdorf, Charles S., Brooklyn, assignor to Automatic Coin-wrapping Machine Company, New York, N. Y. Coin-package wrapper. No. 1,130,246; Mar. 2; Gaz. vol. 212; p. 140.
- Batdorf, Charles S., Brooklyn, assignor to Automatic Coin Wrapping Machine Company, New York, N. Y. Coin-separator. No. 1,149,615; Aug. 10; Gaz. vol. 217; p. 507.
- Bate, James, Detroit, Mich. Die-casting machine. No. 1,153,749; Sept. 14; Gaz. vol. 218; p. 528.
- Bateman, Adolphus J., et al. (See Akin, Willis H., assignor.)
- Bateman Manufacturing Company. (See Hart, Lewis A., assignor.)
- Bateman Manufacturing Company. (See Willis, Leland, assignor.)
- Bateman, Paul, Webster Groves, assignor to American Car and Foundry Company, St. Louis, Mo. Car-roof. No. 1,164,057; Dec. 14; Gaz. vol. 221; p. 508.
- Bateman, Thomas A. (See Hye, Campbell, and Bateman.)
- Bateman, William H. S. (See Matthews, Freeman, and Bateman.)
- Bater, Harold M., et al. (See Bostwick, Seymour A., assignor.)
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Ring-welding machine. No. 1,124,258; Jan. 12; Gaz. vol. 210; p. 409.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Wire-tying bags. No. 1,131,311; Mar. 9; Gaz. vol. 212; p. 544.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bagging-machine. No. 1,137,376; Apr. 27; Gaz. vol. 213; p. 1291.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag-filling machine. No. 1,138,618; May 11; Gaz. vol. 214; p. 351.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag-filling machine. No. 1,140,867; May 25; Gaz. vol. 214; p. 1214.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Making and filling bags. No. 1,143,801; June 22; Gaz. vol. 215; p. 1049.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag-tying machine. No. 1,151,752; Aug. 31; Gaz. vol. 217; p. 1414.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag-tie. No. 1,156,265; Oct. 12; Gaz. vol. 219; p. 351.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Wire tie. No. 1,158,957; Nov. 2; Gaz. vol. 220; p. 191.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Wire-tie-forming machine. No. 1,162,675; Nov. 30; Gaz. vol. 220; p. 1670.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag-tie. No. 1,164,450; Dec. 14; Gaz. vol. 221; p. 646.
- Bates, Adelmor M., assignor to Bates Valve Bag Company, Chicago, Ill. Bag. No. 1,164,451; Dec. 14; Gaz. vol. 221; p. 646.
- Bates, Albert H., East Cleveland, assignor to The American Multigraph Company, Cleveland, Ohio. Machine for printing addresses. No. 1,151,557; Aug. 31; Gaz. vol. 217; p. 1348.
- Bates, Arthur. (See Gouldbourn, Bates, and Jerram.)
- Bates, Arthur. (See Harris and Bates.)
- Bates, Arthur. (See Jerram, Gouldbourn, and Bates.)
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Shoe-sewing machine. No. 1,124,195; Jan. 5; Gaz. vol. 210; p. 340.
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Machine for rendering soles flexible. No. 1,126,350; Jan. 26; Gaz. vol. 210; p. 1228.

Alphabetical list of patentees—Continued.

- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Sole-trimming machine. No. 1,129,058; Feb. 23; Gaz. vol. 211; p. 962.
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Apparatus for leveling the ends of tools. No. 1,129,059; Feb. 23; Gaz. vol. 211; p. 963.
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Machine for use in the manufacture of boots and shoes. No. 1,140,349; May 25; Gaz. vol. 214; p. 1031.
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Machine for use in the manufacture of boots and shoes. No. 1,141,302; June 1; Gaz. vol. 215; p. 77.
- Bates, Arthur, Leicester, England, assignor to United Shoe Machinery Company, Paterson, N. J. Machine for handling articles. No. 1,142,136; June 8; Gaz. vol. 215; p. 403.
- Bates, Arthur, and J. Gouldbourn, Leicester, England, assignors to United Shoe Machinery Company, Paterson, N. J. Sole-leveling machine. No. 1,123,219; Jan. 5; Gaz. vol. 210; p. 5.
- Bates, Arthur, and A. S. Kemp, Leicester, England, assignors to United Shoe Machinery Company, Paterson, N. J. Folding-machine. No. 1,160,127; Nov. 16; Gaz. vol. 220; p. 690.
- Bates, Carl F. W., *et al.* (See Gebauer, Theophil H., assignor.)
- Bates, Charles G., London, England, assignor to Mills Woven Cartridge Belt Company, Worcester, Mass. Woven fabric and weaving the same. No. 1,132,508; Mar. 16; Gaz. vol. 212; p. 1008.
- Bates, Charles T. (See Rexroat, George P., assignor.)
- Bates, Clarence A., assignor to The Perkins Electric Switch Manufacturing Company, Bridgeport, Conn. Electric switch. No. 1,127,379; Feb. 2; Gaz. vol. 211; p. 249.
- Bates, Clifford V., Chicago, Ill. Shock-absorber. No. 1,154,599; Sept. 28; Gaz. vol. 218; p. 884.
- Bates, Eddo V., Lowell, Mass. Breast for carding-machines. No. 1,162,846; Dec. 7; Gaz. vol. 221; p. 40.
- Bates, Eddo V., assignor to Bates & Robinson Machine Company, Lowell, Mass. Carding-engine. No. 1,160,367; Nov. 16; Gaz. vol. 220; p. 772.
- Bates, Edward T., Washington, D. C. Nut-lock. No. 1,143,247; June 15; Gaz. vol. 215; p. 835.
- Bates, Ernest M., and F. Phillips, London, England, assignors to The National Cash Register Company, Dayton, Ohio. Register-concealing mechanism. No. 1,135,149; Apr. 13; Gaz. vol. 213; p. 425.
- Bates, Franklin P., Indianapolis, Ind. Forging-machine. No. 1,151,753; Aug. 31; Gaz. vol. 217; p. 1415.
- Bates, George, *et al.* (See Clemons, James H., assignor.)
- Bates, George M., Lebanon, Mo. Farm-gate. No. 1,155,463; Oct. 5; Gaz. vol. 219; p. 48.
- Bates, Harry, East Orange, N. J., and A. G. Kurowski, assignors to Underwood Typewriter Company, New York, N. Y. Stand for type-writing machines. No. 1,139,833; May 18; Gaz. vol. 214; p. 816.
- Bates, Harry, West Copake, and C. E. Smith, assignors to Underwood Typewriter Company, New York, N. Y. Automatic centering-scale for type-writers. No. 1,146,393; July 13; Gaz. vol. 216; p. 516.
- Bates, Harry A., Galesburg, Ill. Telephone. No. 1,129,840; Mar. 2; Gaz. vol. 212; p. 3.
- Bates, Henri L., Springfield, Mass. Air-tight-surface-forming compound. No. 1,129,268; Feb. 23; Gaz. vol. 211; p. 1036.
- Bates, Henry A., Middletown, Conn. Wax thread and making the same. No. 1,132,150; Mar. 16; Gaz. vol. 212; p. 877.
- Bates, J. M., *et al.* (See Engle, William G., assignor.)
- Bates, John, Turlock, Cal. Ditch-guard. No. 1,153,186; Sept. 14; Gaz. vol. 218; p. 328.
- Bates, John C., Lake City, Fla. Plant and tree digger. No. 1,162,126; Nov. 30; Gaz. vol. 220; p. 1487.
- Bates, John S. (See Whitaker and Bates.)
- Bates, John T., Pittsburgh, Pa. Furnace-hotting apparatus. No. 1,154,281; Sept. 21; Gaz. vol. 218; p. 747.

- Electrelle Company. (See Dorricott, Charles W., assignor.)

Alphabetical list of patentees—Continued.

- Electric Bank Protection Company. (See Williams, John P., assignor.)
- Electric Boat Company. (See Davison, Gregory C., assignor.)
- Electric Boat Company. (See Davison and Anderson, assignors.)
- Electric Boat Company. (See Epes, Henry S., assignor.)
- Electric Boat Company. (See Grieshaber, Hugo, assignor.)
- Electric Boat Company. (See Spear, Lawrence Y., assignor.)
- Electric Carrier Company. (See McLeer, Charles B. and J. F., assignors.)
- Electric Controller and Manufacturing Company. (See Hall, Jay H., assignor.)
- Electric Controller and Manufacturing Company, The. (See Rippl, Charles H., assignor.)
- Electric Controller and Manufacturing Company, The. (See Stratton, Harry F., assignor.)
- Electric Heat Storage Company, The. (See Joyce, Victor E., assignor.)
- Electric Mail Carrier Company. (See Griffiths, William J., Jr., assignor.)
- Electric Movograph Company. (See Partridge and Hummel, assignors.)
- Electric & Ordnance Accessories Company, The. (See Langley and Price, assignors.)
- Electric Ore Separator Company. (See Weatherby, Joseph, assignor.)
- Electric Railway Improvement Company, The. (See Cadle, Charles L., assignor.)
- Electric Railway Improvement Company, The. (See Cleveland, William B., assignor.)
- Electric Railway Improvement Company, The. (See Herrick, Albert B., assignor.)
- Electric Service Supplies Company. (See Ebersole, Cyrus P., assignor.)
- Electric Service Supplies Company. (See Sharples, Alfred R., assignor.)
- Electric Smelting and Aluminum Company, The. (See Cowles, Alfred H., assignor.)
- Electric Spark Appliance Co. (See Grubman, Leo, assignor.)
- Electric Storage Battery Company, The. (See Entz, Justus B., assignor.)
- Electric Storage Battery Company, The. (See Hull and Woodbridge, assignors.)
- Electric Storage Battery Company, The. (See Myers, Herbert G., assignor.)
- Electric Tachometer Company, The. (See Hopkins, Nevil M., assignor.)
- Electric Tachometer Company, The. (See Kolff and Hollyday, assignors.)
- Electric Time Recorder Company. (See Radtke, Albert A., assignor.)
- Electric Time Recorder Company. (See Straub, William F., assignor.)
- Electric Time Recorder Company. (See Straub and Radtke, assignors.)
- Electric Water Sterilizer Company. (See Hartman, Harry B., assignor.)
- Electric Weighing Company. (See Messiter, Edwin H., assignor.)
- Electrical Engineers Equipment Company. (See Sessions, Edson O., assignor.)
- Electrical Refrigerating Company, The. (See Williams, Edward T., assignor.) (Reissue.)
- Electrical Steam Radiator Co. (See Ross, John D., assignor.)
- Electro Bleaching Gas Company. (See Ornstein, Georg, assignor.)
- Electro Chemical Products Association. (See Schulte, Louis, assignor.)
- Electro-Chemical Rubber & Manufacturing Company. (See Daft, Leo, assignor.)
- Electro Dental Manufacturing Company. (See Schramm, Adolph W., assignor.)
- Electro Metallurgical Company. (See Becket, Frederick M., assignor.)
- Electro Metallurgical Company. (See Harrison, Herbert C., assignor.)
- Electro Pneumatic Skid Company. (See Stansell and Oland, assignors.)
- Electromobile Company, The. (See Bernheimer, Sanford J., assignor.)
- Electron Chemical Company. (See Allen, Edward A. and H. I., assignors.)
- Elekes, Louis, Heatherman, W. Va. Shoe-cleaning machine. No. 1,128,767; Feb. 16; Gaz. vol. 211; p. 823.

- Emrich, Alfred, Pforzheim, Germany, assignor, by mesne assignments, to Shiman-Miller Manufacturing Company, Cigar-cutter. (Reissue.) No. 13,873; Feb. 2; Gaz. vol. 211; p. 250.
- Emrich, Firm of T. (See Emrich, Richard, assignor.)
- Emrich, Richard, assignor to Firm of T. Emrich, Pforzheim, Germany. Curb-chain bracelet. No. 1,144,408; June 29; Gaz. vol. 215; p. 1291.
- Emrick, Harry A., Casey, Ill. Telegraph instrument. No. 1,124,119; Jan. 5; Gaz. vol. 210; p. 313.
- Emtman, Theodore, Los Angeles, Cal. Conveying apparatus. No. 1,123,715; Jan. 5; Gaz. vol. 210; p. 176.
- En Holm, Oscar A., New York, N. Y. Gas-engine valve-gear. No. 1,149,565; Aug. 10; Gaz. vol. 217; p. 486.

Alphabetical list of patentees—Continued.

- Enamel Concrete Company. (See Stehm, Frank R., assignor.)
- Enameled Metals Company. (See McIlroy, Peter, assignor.)
- Enameled Steel Package Corporation. (See Wiedeman, Henry C., assignor.)
- Enameled Steel Package Corporation. (See Wiedeman and Schaum, assignors.)
- Enarson, Gustaf, Montclair, N. J. Bearing for swings. No. 1,147,081; July 20; Gaz. vol. 216; p. 777.
- Enders, William H., Sacramento, Cal. Starter for explosive-engines. No. 1,127,212; Feb. 2; Gaz. vol. 211; p. 193.
- Endicott, Warren E., Pawnee, Okla. Resilient wheel. No. 1,158,795; Nov. 2; Gaz. vol. 220; p. 136.
- Eneas, Aubrey G., Winthrop, assignor to Spray Engineering Company, Boston, Mass. Spray-nozzle. No. 1,163,591; Dec. 7; Gaz. vol. 221; p. 299.
- Enell, Otto E., Jersey City, N. J., assignor to Wayne Manufacturing Company. Clothes rack or drier. No. 1,150,933; Aug. 24; Gaz. vol. 217; p. 1090.
- Engel, Arthur F., New York, N. Y. Eyeletting-machine. No. 1,132,567; Mar. 23; Gaz. vol. 212; p. 1076.
- Engel, Frank, Niagara Falls, N. Y., assignor, by mesne assignments, to Central Trust Company of New York, trustee. Pasting-machine. No. 1,147,009; July 20; Gaz. vol. 216; p. 753.
- Engel, Edwin F., and L. Anderson, assignors of one-half to G. W. Stahl, Chicago, Ill. Caloric engine. No. 1,128,860; Feb. 16; Gaz. vol. 211; p. 856.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Making shoe-uppers. No. 1,139,653; May 18; Gaz. vol. 214; p. 753.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Making shoe-uppers. No. 1,142,155; June 8; Gaz. vol. 215; p. 412.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Stock-cutting. No. 1,142,156; June 8; Gaz. vol. 215; p. 413.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Machine for trimming the linings of shoes. No. 1,148,762; Aug. 3; Gaz. vol. 217; p. 101.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Boot and shoe. No. 1,149,189; Aug. 10; Gaz. vol. 217; p. 351.
- Engel, Karl, Arlington, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Fastener for shoe-uppers. No. 1,150,854; Aug. 24; Gaz. vol. 217; p. 1064.
- Engel, Karl, Revere, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Making shoes. No. 1,142,556; June 8; Gaz. vol. 215; p. 554.
- Engel, Karl, Revere, Mass., assignor to United Shoe Machinery Company, Paterson, N. J. Machine for use in the manufacture of boots and shoes. No. 1,142,557; June 8; Gaz. vol. 215; p. 554.
- Engel, William C., Adrian, Mich. Air-valve for automobile-engines. No. 1,146,931; July 20; Gaz. vol. 216; p. 725.
- Engelbert, Oscar M., New York, N. Y. Key-cutting machine. No. 1,135,676; Apr. 13; Gaz. vol. 213; p. 609.
- Engelbreit, John D., assignor to The Enterprise Optical Mfg. Company, Chicago, Ill. Automatic shutter for kinetoscopes. No. 1,138,364; May 4; Gaz. vol. 214; p. 227.
- Engelfried, William F., and G. A. Elfers, Milwaukee, Wis. Helmet. No. 1,131,350; Mar. 9; Gaz. vol. 212; p. 557.
- Engelhardt, Edward J., San Jose, Cal. Machine for syring fruit in cans. No. 1,135,102; Apr. 13; Gaz. vol. 213; p. 408.
- Engelhardt, Frederick, St. Johnsville, N. Y. Clutch. No. 1,125,278; Jan. 19; Gaz. vol. 210; p. 812.
- Engelhart, John G., Atlanta, Ga. Furnace. No. 1,135,169; Apr. 13; Gaz. vol. 213; p. 431.
- Engelmann, Max, Elberfeld, Germany, assignor to Synthetic Patents Co., Inc., New York, N. Y. Esters of carboxylarylphosphoric acids. No. 1,125,081; Jan. 19; Gaz. vol. 210; p. 740.
- Engelmann, Max, and B. Merkel, Elberfeld, Germany, assignors to Synthetic Patents Co., Inc., New York, N. Y. Pharmaceutical product. No. 1,126,432; Jan. 26; Gaz. vol. 210; p. 1256.
- Engelmann, William F., Chicago, Ill. Retouching-pencil. No. 1,151,451; Aug. 24; Gaz. vol. 217; p. 1263.
- Engels, Max, Westend, near Berlin, Germany. Muffle for the distillation of zinc. No. 1,136,519; Apr. 20; Gaz. vol. 213; p. 947.
- Engelwood, Patrick. (See Smedman, John, assignor.)
- Engen, Julius J. (See Newbauer, Faltine, assignor.)
- Engers, Martin, Toronto, Ontario, Canada. Lamp-dimmer. No. 1,146,143; July 13; Gaz. vol. 216; p. 429.
- Engesser, John A. (See Flickinger, John C., assignor.)
- Englhauser, Winford L., Winslow Park, Ohio. Atomizer. No. 1,151,254; Aug. 24; Gaz. vol. 217; p. 1200.
- Engine Holdings Company, The. (See Goby, Clifford S., assignor.)
- England, Alicia, Jasper county, Mo. Toy seesaw. No. 1,144,895; June 29; Gaz. vol. 215; p. 1458.
- England, Arthur E., Detroit, Mich. Thermostatic control for the valve of a carbureter. No. 1,149,743; Aug. 10; Gaz. vol. 217; p. 553.
- England, Clifford R., assignor of one-half to R. E. Stone, McKeesport, Pa. Means for controlling electric current. No. 1,154,849; Sept. 28; Gaz. vol. 218; p. 968.
- England, Egbert H. (See Frank, Edward H., assignor.)
- Engländer, Adolf, Eywanowitz, Austria-Hungary. Sealing-wax applicator. No. 1,150,584; Aug. 17; Gaz. vol. 217; p. 913.
- Englander, Max. (See Plunkett, Charles L., assignor.)
- Englander Spring Bed Company. (See Quincy, Henry J., assignor.)
- Englar, Clayton H., Baltimore, Md., assignor to Continental Can Company, Incorporated, Syracuse, N. Y. Device for feeding filled cans to closing-machines. No. 1,140,807; May 25; Gaz. vol. 214; p. 1190.
- Engle, Albert M., and S. B. Phillips, Gloucester, Ohio. Gripper. No. 1,129,185; Feb. 23; Gaz. vol. 211; p. 1007.
- Engle, James O., Ransom, Kans. Folding shipping-crate. No. 1,138,096; May 4; Gaz. vol. 214; p. 132.
- Engle, John F., Cleveland, Ohio. Time-recorder. No. 1,151,516; Aug. 24; Gaz. vol. 217; p. 1287.
- Engle, John F., Cleveland, Ohio. Selective system and apparatus. No. 1,156,352; Oct. 12; Gaz. vol. 219; p. 380.
- Engle, John F., Cleveland, assignor to W. L. Widlar, Lakewood, Ohio. Tubular tire-saving jack. No. 1,164,598; Dec. 14; Gaz. vol. 221; p. 695.
- Engle, Lillian K., Philadelphia, Pa. Fastening device. No. 1,142,510; June 8; Gaz. vol. 215; p. 539.
- Engle, William, Taylor, Wash. Air-hose coupling. No. 1,161,641; Nov. 23; Gaz. vol. 220; p. 1270.
- Engle, William G., Enderlin, assignor of one-tenth to J. M. Bates, Lisbon, N. D., and one-tenth to K. O. Sandum, Minneapolis, Minn. Standing-grain thresher. No. 1,134,443; Apr. 6; Gaz. vol. 213; p. 131.
- Engledove, Edwy D., and C. W. Kitterman, Washington, D. C. Safety device for elevators. No. 1,164,796; Dec. 21; Gaz. vol. 221; p. 806.
- Engler, Richard A., Lubuque, Iowa. System of electrical transmission. No. 1,134,983; Apr. 6; Gaz. vol. 213; p. 322.
- Englert, Joseph J., Chicago, Ill. Corrugated fastener. No. 1,129,968; Mar. 2; Gaz. vol. 212; p. 46.
- Englesson, John E., Karlskrona, Sweden, assignor, by mesne assignments, to Allis-Chalmers Manufacturing Company. Distributing-valve. No. 1,125,825; Jan. 19; Gaz. vol. 210; p. 1006.
- Englesson, John E., Karlskrona, Sweden, assignor, by mesne assignments, to Allis-Chalmers Manufacturing Company. Compensating device. No. 1,126,433; Jan. 26; Gaz. vol. 210; p. 1256.
- Englesson, John E., Karlskrona, Sweden, assignor, by mesne assignments, to Allis-Chalmers Manufacturing Company. Speed-limiting device. No. 1,127,977; Feb. 9; Gaz. vol. 211; p. 501.
- English, Analdo M. (See Lougee and English.)
- English, Ferdinand E., St. Louis, Mo. Hat. No. 1,129,857; Mar. 2; Gaz. vol. 212; p. 9.
- English, Ferdinand E., St. Louis, Mo. Bandeau for hats and the like. No. 1,157,093; Oct. 19; Gaz. vol. 219; p. 672.
- English, Frederick A. (See Shock and English.)
- English, John C. (See Johnson and English.)
- English, John C. (See Van Keuren, Henry P. T., assignor.)
- English, John C., Camden, N. J. Gas-engine. No. 1,159,481; Nov. 9; Gaz. vol. 220; p. 406.
- English, John C., Camden, N. J. Gas-engine. No. 1,159,482; Nov. 9; Gaz. vol. 220; p. 407.
- English & Mersick Co., The. (See Krah, Alexis, assignor.)
- English, William F. (See Ringland and English.)
- English, William J., and G. M. Wilcox, Chicago, Ill.; said Wilcox assignor to said English. Impact-indicator and game device. No. 1,145,833; July 6; Gaz. vol. 216; p. 300.
- Englund, Olof, Chicago, Ill. Carpet-cleaner. No. 1,155,556; Oct. 5; Gaz. vol. 219; p. 81.
- Engstrom, Isack G., Minneapolis, Minn. Column-clamp. No. 1,164,335; Dec. 14; Gaz. vol. 221; p. 605.
- Engstrom, Ivan, assignor, by mesne assignments, to C. M. and H. R. Hedman, Chicago, Ill. Check-protector. No. 1,156,000; Oct. 5; Gaz. vol. 219; p. 233.
- Ennison, Walter J., Brooklyn, N. Y. Game-board. No. 1,155,714; Oct. 5; Gaz. vol. 219; p. 136.
- Eno, Frank F., Boston, Mass., assignor to Eno Welt Shoe Company. Hand-method lasting-machine. No. 1,132,535; Mar. 16; Gaz. vol. 212; p. 1018.
- Eno Welt Shoe Company. (See Eno, Frank F., assignor.)
- Enoch, Harry, and G. M. Point, Huntington, W. Va. Emergency-valve attachment for air-brake systems. No. 1,164,709; Dec. 21; Gaz. vol. 221; p. 776.
